NOTE

“**O poveste**” means “A story” in Romanian language. It’s an epic journey with elements of imaginative tales that came out of my invention. I wanted to place the lyrical elastic melodies around contrasting timbral densities. The “lighting” of the elements is mainly focused, the rest remain murky but still so real. Sometimes, the trail lead to brief meditative moments and eventually to ether...

The “Premiere” of the first version was performed on 6th August 2005 in the “Casa de Cultura” of Breaza, Romania by Constantin AMARANDEI (Cl.), Daniel MIHAI (Vl.) and Mihai Emil COCEA (Vla.). Special thanks to Marius UNGUREANU (Vla.) and Icon Arts Romania.

All musicians read from the score (no separate parts).

All glissandos occupy the total duration of the note to which they apply.

 = open-ended glissando
 mf/pp = first *mf*, then *pp* subito
 mp ← — → *f* = indeterminate fluctuation between these limits
 = crescendo dal niente
 = quick crescendo at the very end

All musicians must play **-senza vibrato-** except when it’s indicated otherwise.

s.v. = senza vibrato **p.v.** = poco vibrato **m.v.** = molto vibrato **l.v.** = let vibrato **s.p.** = sul ponticello **s.t.** = sul tasto

Let vibrate all pizzicati as long as possible (don’t mute !).

 *
 = fingernail flick : so that the nail will strike the string.

 ⊗
 = fingernail pizzicato : the string is plucked with the fingernail

 = harmonic’s notation used in order to read rhythms easily

 = multiphonic textures from sparse to complex

On the right : schematic design of a clarinet and numerical designation of the keys.

Other special instructions are given in the score.

TRANPOSED SCORE

O poveste

Alin GHERMAN (*1981)
opus 60, revised 2015

A ♩=60
